This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

From Theoretical-Oriented to Practical Education in Agrarian Studies

Co-funded by the
Erasmus+ Programme
of the European Union

FROM THEORETICAL-ORIENTED TO PRACTICAL EDUCATION IN AGRARIAN STUDIES

BASIC PROBLEMS ACHIEVING THE OBJECT OF THIS PURPOSE

PRACTICAL ORIENTATION STUDY

The lack of practical orientation in agricultural study programs, leads to low levels of employability as graduates have a limited understanding of farm management

STUDENT-CENTERED TEACHING

Teaching methods are still lecturer centered and hierarchical. There is a need for more student-centered activities and learning by doing

FARM DATA

A lack of reliable, comparable farm data leads to a lack of understanding of on farm business and production issues

TO ENSURE A BROAD IMPACT ON ALL TARGET GROUPS, DISSEMINATION OF THE PROJECT RESULTS IS ORGANIZED THROUGH A LAYERED APPROACH
